

Pinewood Derby FAQ

Do I need to use the items in the kit?

Yes, your car must be made from the items in the kit.

Can I use a car that I made last year?

No, you must make a new car each year.

Can I move the axles?

Yes, but the axle spacing must remain the same.

Can I add weight?

Absolutely, and you should. Just make sure that the overall dimensions stay within the guidelines. Pay close attention when adding weight to the back of the car.

Does my car have to weight exactly 5.0 ounces?

No, but we do recommend getting as close to 5.0 ounces as possible without going over.

Is there a front and back to the wooden block?

Yes, but you can run your car either direction.

Can I bend the axles?

Yes, but be sure that your car still fits within the allowed dimensions.
